DESCRIPTION OF SERVICES

Laducer is in the business of providing labor-intensive information management services. These technology-based services, along with stringent quality control measures, are developed exclusively for each contract. Laducer works hand-in-hand with our clientele through all stages of design and production to ensure we meet and exceed all expectations. Our multilingual people are dedicated to providing complete and accurate data capture services to our customers at the lowest possible cost, and delivered at the required time. With a robust data security policy and business continuity plan in place, Laducer fully safeguards customer data at all times.

Since our formation, Laducer has worked on different types of contracts, demonstrating the strength of our contract management capabilities. Every contract comes with unique and specific demands, the expectations of which are continually met and/or exceeded by our production people.
